Metabolism in *Nautilus*, glucose and proline, 337–341
Metamorphosis of the prosobranch mollusc, *Epitonium ulu*, associated with a solitary coral, larval development and [abstr.], 508
Mexico
caridean shrimps of. I. new records, with some remarks on amphiamerican distribution, 459–465
Mid-cycle disease of larval *Macrobrachium rosenbergii*, epizootiologic study of [abstr.], 507–508
Molokai, Hawaii
*see* Hawaiian Islands
Morphology, and geochemistry of manganese nodules from the *Valdivia* 13/2 area, equatorial north Pacific, distribution, 241–263
Muscles of *Nautilus pompilius*, some catalytic and regulatory properties of pyruvate kinase from the spadix and retractor, 315–324
Myofiber in *Nautilus pompilius*, a note on the structural organization of the cardiac, 267–271

Nematoda
larval ascaridoid nematodes from fishes near the Hawaiian Islands, with comments on pathogenicity experiments, 187–201
New species
*Astreopora scabra* (Anthozoa), 83–105
*Balanophyllia eguchii* (Anthozoa), 211–219
*Cantherhines longicaudus* (Pisces), 175–185
*Coris aurilineata* (Pisces), 159–173
*Coris bulbifrons* (Pisces), 159–173
*Coris pictoides* (Pisces), 159–173
*Polycyathus isabela* (Anthozoa), 211–219
*Rhizopsammia wellingtoni* (Anthozoa), 211–219
*Trematolobelia auriculata*, 483–506
*Trematolobelia Forbesii*, 483–506
*Trematolobelia kohalaensis*, 483–506
*Trematolobelia lustrialis*, 483–506
*Trematolobelia Rockii*, 483–506
*Trematolobelia singularis*, 483–506
*Tubastraea faulkneri* (Anthozoa), 211–219
*Tubastraea floreana* (Anthozoa), 211–219
*Tubastraea tagusensis* (Anthozoa), 211–219

Nodules, from the *Valdivia* 13/2 area, equatorial north Pacific, distribution, morphology, and geochemistry of manganese, 241–263

Oahu, Hawaii
*see* Hawaiian Islands
Oceania
*Cantherhines longicaudus*, a new filefish, from Oceania, with a review of the species of the *C. fronticinctus* complex, 175–185
Octopine dehydrogenase from the pedal retractor muscle of Strombidae (Class Gastropoda), properties and functions of alanopine dehydrogenase and, 381–394
Organization of the cardiac myofiber in *Nautilus pompilius*, a note on the structural, 267–271
Oxidation and glycogenesis in cephalopod tissues, arginine, glutamate, and proline as substrates for, 325–335

Pacific Ocean
distribution, morphology, and geochemistry of manganese nodules from the *Valdivia* 13/2 area, equatorial north Pacific, 241–263
three new labrid fishes of the genus *Coris* from the western Pacific, 159–173
Pathogenicity experiments, larval ascaridoid nematodes from fishes near the Hawaiian Islands, with comments on, 187–201
Petrology of the Kalaupapa Basalt, Molokai, Hawaii, age and, 411–420
Philippine Islands
Cephalopod expedition of the *Alpha Helix*, 267–410
Photographic investigations on three seamounts in the Gulf of Alaska, 15–34
Pisces
*Cantherhines longicaudus*, a new filefish from Oceania, with a review of the species of the *C. fronticinctus* complex, 175–185
conspecific attraction in a territorial damselfish: analysis of the spatial distribution of *Stegastes fasciolatus* [abstr.], 517
does glucose uptake in marine fish intestines occur by active transport? [abstr.], 510
effects of differential fish grazing on the community structure of an intertidal reef flat at Enewetak Atoll, Marshall Islands, 467–482
feeding behavior of *Chaetodon unimaculatus* in Kaneohe Bay [abstr.], 511
feeding and spatial organization of three species of pomacanthid fishes [abstr.], 512
impact of eel predation reconsidered: the populations of potential prey [abstr.], 509
larval ascaridoid nematodes from fishes near the Hawaiian Islands, with comments on pathogenicity experiments, 187–201
likely site of the magnetic sense organ in yellowfin tuna (*Thunnus albacares*) and blue marlin (*Makaira nigricans*) [abstr.], 516
new hypothesis to explain aspects of coloration in chaetodontid fishes [abstr.], 513
notes on the biology and feeding habits of *Caranx ignobilis* and *Caranx melampygus* in the Northwestern Hawaiian Islands [abstr.], 515
review of the monotypic Indo-Malayan labrid fish genus *Xenojulis*, 119–126
speciation and evolution of marine fishes studied by the electrophoretic analysis of proteins, 141–157
three new labrid fishes of the genus *Coris* from the Western Pacific, 159–173
Platyhelminthes
sperm morphology and development in two acoel turbellarians from the Philippines, 365–380
*Polycyathus isabela* sp. nov., 211–219
Polynesians
impact of the prehistoric Polynesians on the Hawaiian ecosystem, 1–14
Porifera
new habitat report for *Maldivia triunguiculata* (Borradaile) (Brachyura, Xanthidae), a facultative symbiont of *Porites lobata* Dana in Hawaii, 203–209
Precipitation on the Island of Hawaii between 1890 and 1977, annual, 421–425
Predation reconsidered: the populations of potential prey, the impact of eel [abstr.], 509
Prehistoric Polynesians on the Hawaiian ecosystem, impact of the, 1–14
Proline carbon in squid tissues, the fate of arginine and, 343–348
Proline metabolism in *Nautilus*, glucose and, 337–341
Proline as substrates for oxidation and for glycogenesis in cephalopod tissues, arginine, glutamate, and, 325–335
Proteins, speciation and evolution of marine fishes studied by the electrophoretic analysis of, 141–157
Protozoa
Influence of symbiotic dinoflagellates on respiratory processes in the giant clam *Tridacna squamosa*, 395–401
Pyruvate kinase from the spadix and retractor muscles of *Nautilus pompilius*, some catalytic and regulatory properties of, 315–324

Radiotracer technique for investigating prawn (*Macrobrachium rosenbergii*) ecology and digestive physiology, applications of a new [abstr.], 509
Reptilia
basking behavior of the Hawaiian green turtle (*Chelonia mydas*), 129–139
magnetite in the green turtle [abstr.], 514
Respiratory processes in the giant clam *Tridacna squamosa*, influence of symbiotic dinoflagellates on, 395–401
Review of genus
review of the monotypic Indo-Malayan labrid fish genus *Xenojulis*, 119–126
Revision of genus
reef coral *Astreopora* (Anthozoa, Scleractinia, Astrocoeniidae): a revision of the taxonomy and description of a new species, 83–105
*Rhizopsammia wellingtoni* sp. nov., 211–219
Rugose leaf in *Desmodium*, inheritance of, 221–228

Seamounts in the Gulf of Alaska, photographic investigations on, 15–34
Seed germination, effect of temperature and light on

*Metrosideros polymorpha*, 229–240
Sexual reproduction in the solitary scleractinian coral, *Fungia scutaria* (Lamarck) [abstr.], 513–514
Siphuncle as an ion pump, the *Nautilus*, 273–282
South Pacific Ocean
  review of the monotypic Indo-Malayan labrid fish genus *Xenojulis*, 119–126
Spatial distribution of *Stegastes fasciolatus*, conspecific attraction in a territorial damselfish: analysis of [abstr.], 517
Speciation and evolution of marine fishes studied by the electrophoretic analysis of proteins, 141–157
Sperm morphology and development in two acoel turbellarians from the Philippines, 365–380
St. Croix, U. S. Virgin Islands
  *see* U. S. Virgin Islands
Structural organization of the cardiac myofiber in *Nautilus pompilius*, a note on, 267–271
Substrates for oxidation and for glycogenesis in cephalopod tissues, arginine, glutamate and proline as, 325–335
Swimming behavior, correlations between enzyme profiles in cephalopod muscle and, 349–356
Symbiont of *Porites lobata* Dana in Hawaii, new habitat report for *Maldivia triunguiculata* (Borradaile) (Brachyura, Xanthidae), a facultative, 203–209

Temperature and light on *Metrosideros polymorpha* seed germination, effect of, 229–240
Tester, Albert L., seventh annual memorial symposium, abstracts, 507–517
*Trematolobelia auriculata* sp. nov., 483–506
*Trematolobelia Forbesii* sp. nov., 483–506
*Trematolobelia kohalaensis* sp. nov., 483–506
